WIN 2025

# Weekly Seminar Series

**THURSDAYS at 11 AM**

Co-chairs: Jennifer Gosselin, Jen Zamon & Beth Sanderson

- JAN 23**    **The effects of predation on survival of salmonids in the Columbia River Basin: So. Much. Uncertainty**  
Webinar & Montlake in person
- Grant Waltz, MSc and James Lawonn, MSc**  
Fisheries Project Leader; & Avian Biologist, Oregon Department of Fish and Wildlife
- JAN 30**    **Evidence of impact, and the Impact of evidence: Evaluating knowledge sources of ecological changes caused by European green crabs in Washington State**  
Webinar & Montlake in person
- Emily Grason, PhD**  
Marine Ecologist | Crab Team Program Manager, Washington Sea Grant
- FEB 06**    **Predation Estimation: Building from empirical summaries to inferential hypotheses**  
Webinar & Montlake in person
- Quinn Payton, PhD**  
Lead Statistician, Real Time Research
- FEB 13**    **American White Pelicans: Emerging predators of Yakima, Walla Walla, and Umatilla River salmon and Steelhead smolts**  
Webinar & Montlake in person
- Trenton De Boer and Craig Contor**  
Predation & Invasive Species Biologist and Umatilla Basin Monitoring & Evaluation Project Leader, Yakama Nation Fisheries and Confederated Tribes of the Umatilla Indian Reservation
- FEB 19**    **Ecosystem impacts of sharks: Disentangling data from dogma**  
This seminar is on Wed | Webinar only
- Neil Hammerschlag, PhD**  
Executive Director, Shark Research Foundation; President, Atlantic Shark Expeditions
- FEB 20**    **NO SEMINAR: FOCUS DAY**
- FEB 27**    **Navigating Coexistence: Ecological drivers and social implications of predator-induced regime shifts in the Northeast Pacific**  
Webinar only
- Jenn Burt, PhD**  
BC Marine Program Lead, Nature United and Simon Fraser University
- MAR 06**    **Who eats who and why?**  
Webinar & Montlake in person
- Amy Cook, PhD**  
Professor, The Evergreen State College
