AGENDA

**All times are approximate, and may be changed at the discretion of the Peer Review Panel chair. This session of the Peer Review Panel is being reconvened at the request of the NEFMC as part of the peer review report finalization to provide the opportunity to confirm that model diagnostics and assessment results of the recommended model configurations are acceptable. The meeting is open to the public; however, as this is considered a Report Writing session, there will be no Public Comment period and we ask that the public refrain from engaging in discussion with the Peer Review Panel.*
